2019-2020 Employer Partnership Details

On-Campus Recruiting

Recruitment Strategy Session - We will schedule an initial recruitment strategy session with you to plan and schedule your partnership benefits for the term. If additional strategy sessions are needed, we are happy to accommodate those. The goal of the session is to inform you regarding the benefits as well as the best times to take advantage of them and also assist you in scheduling them. The rewards of the partnership can only be realized with a solid plan in place.

Visit Days are free once per semester and are \$15 for each additional day. Partners receive more than one free visit per semester. They can be scheduled through Handshake two weeks or more in advance. You will be provided with a table in the Walker Student Center. Depending on the partnership level, lunch on campus may be provided. An information session and an interview room can be scheduled as well.

Upgraded job listings on Handshake (Job posting(s) to target majors). For our gold and silver partners, your job postings will be added for one week per your request to the Handshake homepages of your choice majors (limited number of majors according to partnership level). Majors can be found [here](#).

Access to appropriate student organizations - We will forward our Gold partner communication to the clubs/organizations that you choose. It is up to them to respond. We will do our best to connect you. A list of JBU clubs/organizations can be found [here](#).

Job Blast email to a target student major and professors of that major - We will send your jobs to the majors of your choice. How many emails and majors are dependent on your partnership level.

Visibility

Plasma screen ad of available positions (duration=1 week) - We will take your ad (we can design one if you do not have one) and run it on our plasma screen in the Walker Student

Center. Number of ads is dependent on partnership level.

Social Media Promotion - We will take your ad (we can design one if you do not have one) and promote it on our Facebook, Instagram and LinkedIn pages. Number of ads is dependent on partnership level.

Prominent display of logo on website - We will display your logo and a link to your job posting or HR page on both our employer and student job search web pages. One of our career coaching resources is our student job search page.

Increased visibility on our Monday and Wednesday Job Blasts - We send out job blasts each week to our undergraduate and graduate students. Each week, we choose a major and include jobs relevant to that major. Your jobs will be highlighted on these job blasts in the majors of your choice (number limited by partnership).

Events

Waived fees for one fair*. If we hold a career fair in the term of your partnership*, the general admission fee will be waived for the number of representatives included in your partnership level. To sponsor the fair, there is an additional fee.

Speaking opportunity at one of our spring events - For our Gold partners, we hold several workshops throughout the Spring. We would love to have you host or join us for one of these workshops. The workshop topic will be chosen by the Career Development office, but suggestions are welcome.

Faculty connection - For our Gold and Silver partners, we will connect you with a faculty member in the major of your choice. It will be up to the faculty member to respond and complete the connection, but we will encourage a relationship that could result in the faculty promoting your organization or allowing you to do a classroom presentation. Be prepared to establish goals for the connection in order to achieve desired end results.
