GENERAL ANTHROPOLOGY

TEST INFORMATION

This test was developed to enable schools to award credit to students for knowledge equivalent to that which is learned by students taking the course. The school may choose to award college credit to the student based on the achievement of a passing score. The passing score for each examination is determined by the school based on recommendations from the American Council on Education (ACE). This minimum credit-awarding score is equal to the mean score of students in the norming sample who received a grade of C in the course. Some schools set their own standards for awarding credit and may require a higher score than the ACE recommendation. Students should obtain this information from the institution where they expect to receive credit.

CONTENT

The following topics, which are commonly taught in courses on this subject, are covered by this examination.

Approximate Percent

I. Anthropology as a Discipline 7%
   Branches and Methodologies
   A. Physical anthropology
   B. Cultural Anthropology
      1. Ethnology
      2. Ethnography
   C. Linguistics
   D. Archaeology

II. Various Theoretical Perspectives 3%
   A. Structuralism
   B. Functionalism
   C. Cultural ecology
   D. Cultural evolution
   E. Cultural determinism

III. Physical Anthropology 17%
   A. Genetic principles – genes, heredity, Mendelian inheritance, genotypes – phenotypes, gene pools, mutations, molecular genetics
   B. Adaptation, natural selection, variations (e.g., blood chemistry)
   C. Living primates
   D. Fossils
      1. Relative and absolute dating
      2. Fossil hominids – Australopithecines, Homo erectus, Homo habilis, Homo sapiens (neanderthalensis and sapiens)

IV. Archaeology 19%
   A. Methodology (prehistoric and historic)
   B. Paleolithic and Mesolithic
   C. Neolithic – development of technology, domestication of plants and animals
   D. Development of civilization and urban societies

V. Nature of Culture 12%
   A. Symbols and symbolic systems
   B. Language, sociolinguistics, morphology, phonology
   C. Society vs. culture
   D. Cultural variation: universals and alternatives
   E. Real vs. ideal culture
   F. Cultural change – invention, diffusion, innovation
   G. Cultural relativity, ethnocentrism

4. The Mesolithic era is often described as a period of transition because it
   (A) allowed for the development of great hunting cultures
   (B) is characterized as a period of major growth in the early cities
   (C) witnessed a sharp decline in the development of tools
   (D) represented a period of diversification of subsistence strategies

5. Which of the following statements about ideal cultural patterns (norms) is true?
   (A) There is often great discrepancy between what people say they do and what they actually do.
   (B) A norm ceases to exist if the normative rule is not carried out in social behavior.
   (C) Norms are seldom outmoded or maladaptive.
   (D) Ideal cultural patterns are found only among peoples who practice agriculture.

6. The diagram above shows
   (A) an extended family
   (B) a patrilineage
   (C) a nuclear family
   (D) a matrifocal family

7. Which of the following is true of traits of humans and not true of other animals?
   (A) Prolonged care of young
   (B) Sedentary residence patterns
   (C) Complex symbol systems
   (D) Socialization of young

8. Jane Goodall observed chimpanzees in the wild and was surprised to find that they
   (A) lived in large groups
   (B) made and used tools
   (C) lived in nuclear families
   (D) used sign language

9. The careful description of a culture is called
   (A) epistemology
   (B) phenomenology
   (C) ethnography
   (D) ethnomethodology

10. The special norm that a person must marry someone who is within his or her group is called
    (A) endogamy
    (B) group marriage
    (C) exogamy
    (D) polyandry

STUDYING FOR THE EXAMINATION

The following is a list of reference publications that were being used as textbooks in college courses of the same or similar title at the time the test was developed. Appropriate textbooks for study are not limited to those listed below. If you wish to obtain study resources to prepare for the examination, you may reference either the current edition of the following titles or textbooks currently used at a local college or university for the same class title. It is recommended that you reference more than one textbook on the topics outlined in this fact sheet. You should begin by checking textbook content against the content outline included on the front page of this Fact Sheet before selecting textbooks that cover the test content from which to study. Textbooks may be found at the campus bookstore of a local college or university offering a course on the subject.

Sources for study material suggested but not limited to the following:

Current textbook used by a local college or university for a course on the subject.

**CREDIT RECOMMENDATIONS**

The Center For Adult Learning and Educational Credentials of the American Council on Education (ACE) has reviewed and evaluated the DSST examination development process. ACE has made the following recommendations:

<table>
<thead>
<tr>
<th>Area or Course</th>
<th>Equivalent</th>
<th>Level</th>
<th>Amount of Credit</th>
<th>Source</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Anthropology</td>
<td></td>
<td>Lower level baccalaureate</td>
<td>Three (3) semester hours</td>
<td>ACE Commission on Educational Credit and Credentials</td>
</tr>
</tbody>
</table>

**INFORMATION**

 Colleges and universities that would like additional information about the national norming, or assistance in local norming or score validation studies should write to: DSST Program, Prometric, 2000 Lenox Drive, 3rd Floor, Lawrenceville, NJ 08648.

It is advisable that schools develop a consistent policy about awarding credit based on scores from this test and that the policy be reviewed periodically. Prometric will be happy to help schools in this effort.
