A transfer is defined as follows:

Transfer Student:
An undergraduate student entering the institution for the first time (and is not considered a first-time entering student) with academic credit attempted or earned at another institution (whether or not the credit is accepted by the institution to which the student transfers).

First-time entering student:
A student who has no prior postsecondary experience (except as noted below) attending any institution for the first time at the undergraduate level. This includes students enrolled in academic or occupational programs. It also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). A student will be reported in this category only once. Students should be reported as first-time entering only after the student has received a high school diploma or its equivalency and been matriculated by the institution.
