

Comments collected from some students when asked “What is something you feel like your teacher has taught you this year?” -school year 2020-21

***She has helped me with reading by helping me sound the words out and has encouraged me to meet my sight word goals.***

***That writing can be fun!***

***Doing math because she helps me to be proud of my strategies.***

2<sup>nd</sup> graders: Teacher is a '19 graduate from the Elementary Education program

***Being in her class gives you a chance to feel more independent. Being in here we all hold each other accountable as well as ourselves.***

***She always uses what we are doing in other subjects and ties it to the lesson so we can learn more about it. If we're reading a book she makes sure everyone gets a turn to read.***

***When I am in her class she makes it to where we can understand the instructions. I feel like she knows exactly what she is doing. When she is asked a good question, she lets us know and answers it.***

***She is an amazing teacher and she is there for us when we need her. You always get another chance in her class.***

5<sup>th</sup> graders: Teacher is a 2018 graduate from the Master of Arts in Teaching program

*She is nice, she goes over papers with us and when I am confused she helps me.*

*I feel good being in her class. We learn a lot of new things and she is nice and makes me feel good. She helps me understand my times (tables).*

*I really like when she lets us do experiments in science. She funny and is great at teaching.*

3<sup>rd</sup> graders: Teacher is a 2020 graduate form the Elementary Education program

*She has really helped brighten my day and helps me reduce stress and helps us with our workload. She also teaches us life lessons like how to help other people.*

*She has helped me learn how to help others and how to have confidence in myself and my abilities.*

*She has helped me learn about teamwork.*

8<sup>th</sup> graders: Teacher is a 2019 graduate from the Master of Arts in Teaching program.
